1-3039273275 Call-in number  
Conference Code: 913 006 8534

***Agenda***

**Goals:**

- Provide an update on and discussion of preventive controls implementation.
- Advance the discussion of metrics for promoting and evaluation successful implementation of FSMA.
- Explore how work underway on food safety culture can be built upon to support successful implementation of FSMA.
- Determine any potential next steps for developing short-, mid-term – and long-term FSMA metrics, such as data collection, analysis, and information-sharing.

**Outcome:**

- A summary document outlining key themes discussed and identifying any next steps.

**8:00 am**      ***Coffee and Breakfast***

**8:30 am**      **Welcome, Introductions, Background for this Meeting, Overview of Goals and Outcomes for this Session, Agenda and Ground Rules**

*Objectives:* Brief participants on the background, goals and objectives of the session; fine tune the agenda; and establish ground rules that support a productive dialogue.

- Sandra Eskin, Director, Food Safety, The Pew Charitable Trusts
- Abby Dilley, Vice President of Programs and Senior Mediator, RESOLVE

**8:45 am**      **Brief Updates from FDA**

*Objectives:* Provide updates on FSMA implementation, changes at FDA, and future participation in the CFSF.

- Mr. Mike Taylor, Deputy Commissioner for Foods, FDA
- Dr. Stephen Ostroff, Acting Commissioner for Foods, FDA

**9:00 am**      **Food Safety Culture: A Proposed Framework and Current Activity**

*Objectives:* Provide an overview of food safety culture work under development, including an overall framework, “maturity model,” and tools developed for thinking about and evaluating food safety culture, and specifically for preventive controls facilities.

- Lone Jespersen, Chair of Food Safety Culture Technical Working Group, Global Food Safety Initiative

Topics to be discussed include:

- 1) Background on research and analyses conducted to date, including with specific companies and for the Global Food Safety Initiative (GFSI).
- 2) Measuring food safety culture with a “maturity model,” reflections on experiences to date, and lessons learned.
- 3) Other food safety culture efforts underway and to learn from.

**10:30 am**      **Break**

**10:45 am**      **Preventive Controls Specific Metrics and Inclusion of Food Safety Culture**

*Objectives:* Briefly review discussions during the last conversation on this topic, review and discuss FDA’s current approach to some Preventive Controls metrics as implementation advances, including any incorporation of food safety culture, and determine any next steps.

- TBD

**12:00 am**      **Break for Lunch (Provided)**

**12:45 pm**      **Building and Expanding on Food Safety Culture Efforts to Date**

*Objectives:* Discussion how best to draw on the work underway to advance successful implementation of FSMA and to develop food safety culture metrics as part of an envisioned “web of metrics.”

Topics to be addressed:

- 1) What are some opportunities to build on the work underway? Why, how and by whom?

- 2) What challenges exist for building on current work and how could they be addressed?
- 3) How could current work be adapted and/or translated to the broad range of facilities and operations?
- 4) What, if any, next steps could help advance these CFSF deliberations?

**2:30 pm**      **Break**

**2:45 pm**      **Data Needs and Incentivizing Collection, Sharing, and Use to Improve Evaluation of Successful FSMA Implementation**

*Objectives:* Building on data needs and sharing from the food safety culture discussion, identify additional priority data needs currently not being met along with potential incentives for meeting those needs.

➤ **TBD**

**3:45 pm**      **Key Themes and Next Steps on Metrics and/or Other CFSF Topics**

*Objectives:* Determine work plan going forward for the CFSF.

Future Topics:

- Root-Cause Analysis
- “Web of Metrics”
- “Reliable Audits”

**4:00 pm**      **Adjourn**
